Career Objective

Computer Science and Engineering student specializing in Data Science with an interest in data analytics, artificial intelligence, machine learning, and financial technology. Looking to develop strong technical and analytical skills through projects, internships, hackathons, and real-world problem solving.

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering (Data Science) **2025 – Present**

Ballari Institute of Technology and Management (BITM), Ballari, Karnataka

- Current CGPA: **8.55/10**

Class XII **2025**

Higher Secondary Education

- Percentage: **87.9%**

Technical Skills

Programming	C, Python, SQL
Data Science	Python for Data Analysis, Data Visualization, Statistics
Web Technologies	HTML, CSS, Bootstrap, JavaScript
Tools	Git, GitHub, VS Code, Overleaf
Core Concepts	Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems

Projects

Smart Cliq – AI-Powered Market Analysis Platform *Personal Project*

- Conceptualized a web-based platform for analyzing stock and cryptocurrency market trends.
- Designed a dashboard concept featuring market data, charts, portfolio tracking, and AI-assisted insights.
- Focused on combining data analysis, visualization, and financial technology into a single platform.

Desktop Digital Clock *Academic / Personal Project*

- Developed a digital clock interface displaying continuously updated system time.
- Explored front-end development concepts and real-time time updating.

Academic Experience

- Participated in academic programming and problem-solving activities.
- Practiced C programming and developed small programs to strengthen programming fundamentals.
- Worked with LaTeX and Overleaf for technical and academic documentation.

Areas of Interest

- Data Science and Data Analytics
- Artificial Intelligence and Machine Learning
- Financial Technology and Stock Market Analysis
- Business Analytics
- Software and Web Development

Strengths

- Consistent learner with a strong interest in technology and finance
- Analytical and problem-solving mindset
- Self-learning and project-oriented approach
- Interested in building practical technology solutions

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge.
